

## The Joshua House Church

### Guidelines for On-Site Visitors

The virus that causes COVID-19 can be spread to others by infected persons who have few or no symptoms. Even if a person is only mildly ill from the virus, others who are infected by them can become seriously ill or even die, especially if they are considered at higher risk (e.g., age 65 years or older, a pre-existing health condition such as diabetes, asthma or heart disease, or a weakened immune system). Because of the hidden nature of this threat, everyone who receives approval to visit The Joshua House Church must rigorously follow the practices specified in these protocols. The physical and spiritual health of every person is our top priority. These protocols are designed to keep our staff and visitors safe and to help facilitate a safe environment.
